

Lightbars

Are you looking for light bars for your emergency vehicle that aren't priced so high that you feel like a victim of theft? LED Outfitters (www.ledoutfitters.com) is just the place for you. This dynamic store is fast becoming the leading and primary source of all emergency vehicle lighting products across the United States. What makes LED Outfitters so unique? Led Outfitters has been providing its customers with the highest quality products at the lowest prices on the market since its inception in 2006. Its goal is to provide you with reliable, durable and distinctly designed warning lights for exceptional visibility. This company's interests lie with public safety and that is why it continues to supply public safety professionals with the most innovative products at unbelievable low prices.

LED Outfitters continues to bring LED warning lights to an affordable level while delivering quality products by working together with cutting edge manufacturers from around the world. In this manner, the company is able to provide its customers with products that meet and exceed the current market standards. LED Outfitters strives for total and complete customer satisfaction and thanks to truly satisfied customers and their referrals, this dynamic company has been able to prosper and grow. In keeping with its mission to achieve 100% customer satisfaction, LED Outfitters treats its customers with the utmost care and respect and continues to expand its production line. At www.ledoutfitters.com you will find an ever-increasing selection of the most advanced lighting products such as light bars, mini light bars, strobe kits, grill lights, dash lights, surface mount, light heads, LED products, sirens, PA systems, speakers, police lights, traffic/warning bars and accessories.

All products are made from the finest materials and by the highest standards to ensure that you always purchase reliable and durable emergency lighting products from www.ledoutfitters.com. In the light bars category you will find innovative and advanced products such as the Illuminator Red Light bar, the Vindicator Warning Stick, the Octix Bar Warning Stick and the Illuminator 6 Warning Stick. Additionally, LED Outfitters stock mini light bars such as the Mini Illuminator Light bar, Illuminator Series Sticks (4 head) and Illuminator Series Sticks (8 head). Both the Illuminator Red Light bar and Mini Illuminator Light bar are among the most advanced LED light bars on the market with a complete 360-degree lighting system and low amperage draw. Both light bars use a signature low profile design and are engineered to provide superior aerodynamics and greater fuel savings than other light bars. They are fully encapsulated and water proof and find functionality where high output lights with a simple function are required without hurting the pocket books.

The various warning stick light bars are great solutions for rear back deck lighting as well as for installation on front headliners, mounting on grills or anywhere else seen fit. Each of these light bars can be viewed at www.ledoutfitters.com where you will also find in-depth information on each of the makes, their specifications and features. LED Outfitters offers you quality at the lowest prices; if you are not paying their prices than you are paying way too much for your emergency vehicle lighting products. Visit www.ledoutfitters.com today and stop being a victim of exorbitant pricing!
