

## How to Watch Syfy TV Online

The founders of Spreety [TV Online : Watch TV Shows Online Free](#) gave up TV in 2007. Ever since, they have shared their knowledge of how to watch TV anytime, anywhere via the Internet.

There are many online TV choices, such as Syfy (formerly known as the Sci Fi channel) has an extensive library of current and classic science fiction TV shows online for free. So, Spreety produced a new video to highlight the top tips and tricks for maximizing the Syfy online viewing experience.

The top tips include navigating the Syfy site to find shows on the Syfy rewind player. From the shows, select an episode, and click in the lower left hand corner to watch in full screen. A wish would be for Syfy to add the option to automatically launch in full screen.

The [Syfy TV shows online](#) are Battlestar Galactica, Cha\$e, Destination Truth, Estate of Panic, Eureka, Ghost Hunters, Ghost Hunters International, Sanctuary, Scare Tactics, Stargate Atlantis, Stargate SG-1, and Warehouse 13. Syfy also hosts some of their original movies online.

A common question is why the Sci Fi Channel renamed itself to Syfy (pronounced Sci Fi). The most commonly explained reason is that because "Sci Fi" is a genre, it can't be trademarked by an individual company. So, the homophone (sounds the same, but a different spelling) of Syfy was created to make the owners happy.

In addition to the Syfy channel, Spreety.com has a Sci Fi / Fantasy genre page with many more choices to enjoy.

"If people just knew how much TV is online, there would be mass abandonment of the old TV", according to Spreety co-founder Ron Laughton. "We created Spreety to educate people about the legal places to watch free TV online."

The Spreety video is on YouTube titled Syfy TV Online".
