

Agricultural Machine, Diesel Engine, Generator, Pump & Pumpsets (Water, Submersible, Turbine), Sprayer, Sprinkler. Windsor Exports was founded in early 1996 with the desire to make available world class Agricultural Machines that are produced in India. Our target, though difficult, was clearly defined. For any requirement from abroad our target was to achieve the quality, finish and packaging standard of the best brand available in that particular market. We transcribed the product through metallurgy, manufacturing process, treatment etc. to withstand the physical tests necessary for each item. We supplemented the product with finest detailing, such as Bar Coding. Our efforts are to make a range of best Agricultural Machines

ALL THIS! To give the product our name 'RHINO', Yet at affordable price in all over the world. The results were gratifying. In a short span of time our products have been acknowledged as of the highest quality coming out of India and indeed not very short of the world's best brands.

Today, under the creative instincts, aggressive marketing techniques, visionary approach and ambitious nature of our director, we have made rapid strides in exports and have acquired a respectable status. A team of dynamic professionals overseas handles our operations and continues to innovate in ways that best serve our customer's interest. We look forward to adding you to our family of customers.
